

My Supportive Circle

Give yourself freedom to place names anywhere, in any fashion and in any order that makes sense to you. You may use letters, numbers, symbols, etc. **This is for you** and everything you do is **your choice**.

Let your heart guide you.

- ❖ Place yourself in the middle
- ❖ Place people who you are close with you near you, where ever it feels right to you.

Optional: After names are placed, you can place arrows, changing where those people are placed (signifying where you want them to be).
